

# Internship opportunities in Chiba, Japan

## Covenant Community School International

CCSI Interns serve by using their gifts to teach and assist staff at our K-12 international school (in English). You'll have the chance to teach what you're good at: Subjects could include English, math, physics, drama, history, etc. There are also opportunities for music ministry, sports, and after-school activities. You'll be helping our staff make natural connections with Japanese students and parents, opening doors to share the gospel. For more details go to:
